ID Selection 40 is installed through simple bonding to the subfloor. Because it’s easy to install, you can combine different plank and tile formats from this modular collection in a variety of arrangements.

ID Selection 40 guarantees a professional-quality flooring throughout its lifetime. It’s made to be highly durable, resistant and easy to clean to meet the everyday demands and comfort needs of home interiors and commercial areas like bedrooms in hotels and retirement homes.

The surface of ID Selection 40 is hardened with TopClean XP PUR reinforcement, thus simplifying cleaning and maintenance over time. It significantly reduces use of water, energy and chemical detergents for a lower environmental footprint and excellent life-cycle cost.

Tarkospray: a simpler solution for installing ID Selection flooring

Tarkospray makes it easier than ever before to install luxury vinyl tiles. As the first water-based adhesive in aerosol format, it’s fast, effective, more economical and environmentally friendly.

- TopClean XP PUR reinforcement
- Sanitized® treatment
- 3D design options in high definition print
- Unique structure reinforced with non-woven glass fibre
- Exceptionally hard wearing and indentation resistant
